My last projects

Professional profile

Hi

Thank you for visiting my personal web site. Myname is Engin Terzi, I was born in Turkey. That is where i finished technical high school and after i attended Sakarya University Electrics School where i earned an Associate Degree(2006-2008).

I have worked part time, full time, and freelance. I have published and developed many projects on the web. Below you can find an assessment of my technical skills, as well as my work experience freelance projects.

Currently i am developing kindsnacks.com for a new york based retail company.

- 11 years experience developing personal projects, designing, implementing, web and windows applications in software industry.
- Focused on Asp.net and C# last 7 years and became an expert working on senior positions and focused on JQuery, Json last 3 years.
- Last one year (2010 - 2011) I'd focused to opensource PHP projects are Magento , Drupal and Frame Works which are Zend Framework and PhpCake Mvc (i like it.)
- Experience JQuery, Plugin programming and developing.(I love it)
- Search Engine Optimization for Companies. 8 years experience SEO and developing with very special software for come to first page, firs line. (I love to follow Google Boot from myDelphi tools and hack it.)
